 My Dog Nicky
My dog is very, very old, but when she is hungry she pronounces a word begging for food. Nicky is a white dog and she is small and a mat. She feels very fluffy and she doesn't really smell. When she barks sounds young. She has a brown spot on her tail and another on her back. She sleeps most of the time. When she isn't hungry she walks around the house. When she is excited she rubs her head on you. I feed her every day. Nicky is my mom's dog. Nicky bites my sister a lot. When she is on your lap she scratches you on accident. Sometimes she is very funny other times she is not. She is a very, very good dog. Nicky has gotten most of her teeth pulled.
